

PRESSURE REDUCING VALVE STATION

For Underground Use

At Dowdens we fabricate and fit out a range of pressure reducing stations widely used in underground mining to prevent over pressuring or pipe systems.

- Rated pressure 16 bar, 25 bar, 40 bar.
- Control valving and pipe work
- Hot dipped galvanised finish
- Lockable isolation valves
- Victaulic connection upstream and downstream.
- Capacity to regulate to near Zero flow

Ask us

at Dowdens Pumping for other control valves to meet your applications.

- Deluge valve for fire systems
- Solenoid operated valves
- Pump start valves
- Pressure relief
- Pressure sustaining
- Flow rate control valves
- Level control
